

## **Initial Swim Camp COVID-19 Safety Plan 2021**

Per CDC orders, the facility will require a one-way flow of traffic. We ask that parents and campers enter through the breezeway into the hall and exit through the BBQ area and out to the parking lot. Before entry into the facility, camp staff will do a quick COVID-19 symptom evaluation on all parents and campers, including a touchless temperature check. Any participant with COVID-19 symptoms will not be allowed to participate in swim camp until a doctor's note is provided clearing the child for entry.

Camp staff will be wearing face coverings at all times. All adults who come to the facility will be required to wear face coverings. Campers who are ages 6 and up are required to wear face coverings when out of the water and we encourage campers under the age of 6 to wear face-coverings as well.

In addition, the playground will be reserved exclusively for the swim camp and the pool will be reserved for swim camp for several hours per day.

We are working to limit the number of reusable things each camper touches. We will be using disposable items for arts and crafts, and having campers in assigned chairs and tables so each camper functions in the same space each day.

All snacks and food provided by the camp will be prepackaged only to prevent our staff from coming into contact with the camper's food.

There will be Supervised mandatory hand washing every two hours and before all eating.
